

GRAVITYFLOW[®]

Belt Drive System

The Gravity Flow Belt Drive Door System delivers reliable and smooth performance that's easy to use and operate. The system utilizes dual sets of hi-strength belts that mechanically move the door open and closed.

Notable differences compared to other competitors

- 1" Cross Shaft Diameter
- .125" Tub Panel Thickness (hopper stiffener not required)
- 1" U-Joint
- 5000 lb. Belt Rating (Linear Breaking Strength)
- 4" Overlap on Tub Panel & Trap Frame Attachment
- Full Contact Trap Seal During Door Travel
